General Insurance Code of Conduct

The General Insurance Code of Practice sets minimum service standards which complement the world class regulatory system now governing Australia's financial Services sector.

The General Insurance Code of Conduct allows you the customer, to understand what you can expect from your insurer. It raises the service standards, improves the way that claims and complaints are handled and helps customers better understand how general insurance works.

At WHK Insurance Services it is important to us that you have the right information so that you are able to make informed choices when choosing your insurance policies, so we have provided a link to the Insurance Council of Australia (ICA) website for your reference.

Our Underwriters

The General Insurance Code of Practice sets minimum service standards which complement the world class regulatory system now governing Australia's financial Services sector.

WHK Insurance Services utilises the underwriting services of:
